Projects

Recipe Generator| *Python, APIs, Streamlit* Feb '26

- Developed a web app recipe generator that suggests meals based on ingredients, dietary restrictions, and cuisine preferences.
- Integrated external food APIs to fetch recipe data dynamically
- Implemented filtering logic based on available ingredients and dietary requirements.
- Built an interactive interface using Python and Streamlit

Flight Search Automation System | *Python, REST APIs, Data Processing, Automation* Sep '25

- Developed a Python-based flight deal finder that automatically searches for cheap flights and sends notifications when prices drop below a specified threshold.
- Implemented API integration to retrieve real-time flight pricing data.
- Built a modular system using separate components for flight search, data management, and notifications.
- Implemented automated alerts using email notifications when cheaper flight deals were found.
- Designed a structured workflow using multiple Python modules for scalability and maintainability.

Live Weather Data Visualization | *Python, Pandas, Matplotlib, Seaborn* April '25

- Created a data analysis and visualization dashboard to analyze weather datasets and display insights.
- Cleaned and processed raw datasets using Pandas.
- Built advanced visualizations including relational plots and joint plots using Seaborn and Matplotlib.
- Displayed multiple insights such as temperature trends and daylight analysis.

Certificates

Master Generative AI & Generative AI tools Aug '25
Udemy - https://drive.google.com/file/d/1-ZIVNwHuc60AbsIgrDoGYfGXo3LLilz6/view?usp=sharing
Master in C: Basic to Beyond Mar '24
CSE Pathshala - https://drive.google.com/file/d/1T3rK2k-h9xyxIEHFxS6rpbNB7zYln2WW/view?usp=sharing

Technical Skills

Languages: C++, Java, Python
Technologies/Frameworks: Git, GitHub, Jupyter Notebook, PyCharm, VS Code, HTML, CSS, Streamlit, Power BI
Skills: Data Structures and Algorithms, Problem-Solving, Operating System, DBMS

Education

Lovely Professional University Punjab 2023 - 2027
Computer Science and Engineering – CGPA: 6.82 *Jalandhar, Punjab*
Army Public School 2020 - 2021
12th with Science – Percentage: 89% *Jalandhar, Punjab*
Army Public School 2018 - 2019
10th with Science – Percentage: 83% *Jalandhar, Punjab*
